

The Map Is Not the Territory

April 21- May 14, 2017

Opening Reception:

April 21st, 6:30- 9:30pm

The Map Is Not the Territory examines the construction of representation through socially and lawfully imposed, arbitrary boundaries. The aim is to interrogate discrepancies between reality and belief in response to the current ubiquitous use of non-sequiturs in the public arena. Conceived at the dawn of an unprecedented, divisive presidency, the exhibition upholds the spirit of resistance against misrepresentation and commandeering of identities in our history and contemporary culture.
